3rd line from bottom, assess needs the extra "s". It is very minor. But fix if easy to do, than good to go!

Subject: ASPECT Flights 05 December

Evening everyone,

ASPECT flew two missions Thursday 05 December 2019. We had a detection for ethylene at approx. 0.5ppm near the high school during the morning flight. We saw no sheen in the waterway. We had no detections during the afternoon flight as well as no sheen on the waterway leading to the Neches River.

Today's flight line data and photos are being uploaded to the ftp site.

A draft report with more information on today's flights will follow shortly.

Let me know if you have any questions.

Ahmed
